Dear Ladies and Gentlemen,

We are pleased to inform you that this year's Chiropractic Continuing Education Congress will take place from 29 to 31 August 2024, at the Kongresshaus Biel.

Under the theme "Headache and the Cervical Spine: The Role of Chiropractic in a Multidisciplinary Approach," four hundred practicing chiropractors will gather to discuss the latest insights and treatment approaches.

This event offers you a unique opportunity to connect with chiropractors from across Switzerland. Both experienced practitioners and chiropractic students will be present. As our convention partner, you have the opportunity to showcase your organisation in both the exhibition and the program. The spacious foyers provide ideal opportunities for personal connections and networking.

We are proud that our members almost fully participate in this annual mandatory education. However, such a congress would not be possible without partnerships. Therefore, we are extremely grateful to have you as our partner. Your support is highly valued by us.

We would like to thank you in advance for your support and look forward to working together to create a successful event.
